McConnellville School Closes.
McConnellville school closed an eight months' term last night with an entertainment presented in the school building and attended by a large number of people from the community surrounding. The programme consisted of dialogues, declamations, drills and plays, practically every child in the school taking part. Declamations by Eugene McKie, Aggie Lee Ashe and Nora Shier were especially pleasing to the audience. The school should be withdrawn every Christian would have to leave Tabriz. I do not believe the real condition of affairs is comprehended in America. It is practically the extermination of the Syrians (Neotarians) and very bad for the Armenians. The only hope is occupation by Russia.

Your Child's Cough is a Call for Help.
Don't put off treating your child's Cough. It not only saps their strength but often leads to more serious ailments. Why? Because your child's Cough is a sign of trouble. It is the first remedy your child needs. It is made with soothing, healing and antiseptic ingredients. It will quickly check the cough and soothe your child's Cough away. No other cough medicine is so quick and so sure. Dr. King's Cough Syrup is guaranteed. Just get a bottle from your Druggist and try it.

ing there, it is reported, about 800. Four were sent to Khosrova and 400 to Haft Dewan under the pretense of giving them bread. They were held a few days then all of them tortured and massacred. Many of the women and children were taken away and ill treated. We are anxious about Urmiah. A New York dispatch from Doctor Shedd (W. A. Shedd of Marietta, Ohio) came through by messenger two days ago. He said Urmiah was getting worse. Gulistan, which hitherto had not been disturbed by the Kurds as it had not been taken over, had been plundered and shot. The women and girls who could not escape were violated. This was done by the Turkish soldiers. Forty men had been taken from the Roman Catholic mission in Urmiah City, kept prisoners a few days, then were taken at night two miles from the city and shot. Doctor Shedd writes that not less than 800 had been murdered in Urmiah and not less than 2,000 had died of disease. Urmiah is a very large port more than half of the Christians fled to Russia. Under date of March 24, he writes: "We are very anxious than ever about Urmiah. On the seventeenth troops attacked the city and killed many. The Roman Catholic mission and took five native Russian priests from our compound and treated them badly. We do not know yet if they were killed. The gates of the Catholic mission were burned and they were all in great danger. The native Christian preachers have been crucified and some burned, but these were of other denominations. If the Russian troops should be withdrawn every Christian would have to leave Tabriz. I do not believe the real condition of affairs is comprehended in America. It is practically the extermination of the Syrians (Neotarians) and very bad for the Armenians. The only hope is occupation by Russia."
